

July 2023

Take It & Make It

Bags

Supplies needed:

Paper doily, tote, fabric paint, paint brush, stencil

Align your doily at the bottom corner of your tote. Be sure to leave the lace portion of your doily hang off the bag and on the bottom and outside edge. Tape your doily in place so it doesn't move while painting.

Holding it tightly in place, lightly dab paint in the lace pattern. Try to avoid the outside set of holes to prevent bleeding.

Carefully remove doily and allow to completely dry

Place your stencil inside the circle. For those of you who have an extra piece in your initial. (Example the letter P) Be sure to tape it into place. Lightly dab the paint to fill in your stencil while holding it firmly in place.

Carefully remove initial stencil and allow to dry completely.
