

Take It & Make It October 2022

Wooden Pumpkin Trio

Supplies Provided: Wood for pumpkins, paint (white, orange, yellow), small paint brush for detailing, 3 wine corks, various materials for decorating the stem

Additional Supplies Needed: Glue to glue stem in place, larger paint brush

1. Begin by painting each piece of wood to your preference. *I painted the sample wooden pumpkins then lightly sanded the edges. I then wiped a light coating of stain over them. (Stain is optional and not provided with your kit)
2. Paint on your stripes, shapes or patterns. Be as creative as you wish. *I used the end of the wine cork dipped into white paint for the polka dots.
3. Allow pumpkins to completely dry and glue your wine cork in place as a stem.
4. Decorate around your stem with the materials provided or use something you already have in your craft supplies.
